

Note!

I am a supporter of XM radio and the services it provides and what it does not that the usual regular radio stations do! AD's little music, etc.

Satellite XM is the best thing to come around and I pay to have it and want to keep it that way. For once leave well enuf alone.

I have benefited from the services XM provides and use it daily.

I choose to have this service by paying for it! final.

For the NAB to come along and tell us what we cant have because NAB is not in control for whatever reason is ridiculous.

SO REJECT PETITION 04-160

thanx much!
